STAY WELL AND AGE SUCCESSFULLY

In this practical, hands-on workshop, you will learn:

- What is ageing successfully
- What helps us to avoid serious illnesses at late life
- What we need to maintain our physical and mental functions
- What helps to sustain our important relationships and to stay engaged

About the Learning Room

The Learning Room offers coaching and personal development programmes to master the course of longevity. It is part of the Community For Successful Ageing (ComSA) which seeks to co-create a vibrant, mutually supportive and healthy home where all ages draw the benefits of longevity.

The Tsao Foundation's fourth and latest initiative, ComSA is a system approach with integrated, community-wide comprehensive programmes and services that include health and psycho-social care and pathways to empowerment and participation.

The Learning Room, Hua Mei Clinic (primary healthcare and care management service), Hua Mei EPICC (holistic health day-club for frail elders) and community participation programmes such as SCOPE and SWING, are all conveniently accessible at the ComSA Whampoa Centre, located at the Whampoa Community Club.

For more information, please visit www.tsaofoundation.org.
